

We are an accredited
logistics provider

Scope of Management System

The development and implementation of Management Systems which allow P W Gates conform to ISO 9001:2015 International Standards.

Our scope is based on Logistics divisions that include general warehousing, API and WDA(H) pharmaceutical storage, commercial fleet maintenance, transport (pallet network), transport (dedicated), transport (pharmaceutical), transshipment services and various other business continuity functions.

Throughout the combined business model, we have a consideration to all statutory and regulatory rules as well as local authority and other relevant guidelines.

We have a commitment to all associated parties that we will have strategic and quality objectives including predetermined periods to review the effectiveness, expectation and influences to our Quality Management System (QMS). Our QMS shall be maintained and available as documented information which will include all applicable requirements as dictated by the International Standard.

Please note that the text above is an extract copied from a controlled document which forms part of our QMS, is for general information only and as such does not show the version number, author, date of review and signatures of the directors. For persons or organisations with a valid reason, the complete document is available on request.
