

We are an accredited logistics provider

Health & Safety Statement

This company is committed to ensuring the health, safety and welfare of its employees, so far as is reasonably practicable. We also fully accept our responsibility for other persons who may be affected by our activities.

We will also take steps to ensure that our statutory duties are met at all times. Each employee will be given such information, instruction, and training as is necessary to enable the safe performance of work activities according to the scale and nature of possible tasks.

It is the duty of management to ensure that all processes and systems of work are designed to take account of Health and Safety and are properly supervised at all times.

Adequate facilities and arrangements will be maintained to enable employees and their representatives to raise issues of Health and Safety, and all available published information shall be available on request.

Competent people will be appointed to assist us in meeting our statutory duties and our commitment to continually improve, including, where appropriate, specialists from outside the company.

Every employee and contracted agent must co-operate with us to enable all statutory duties to be complied with. The successful implementation of this policy requires total commitment from all levels of employee, including senior management. Each individual has a legal obligation to take reasonable care of his own Health & Safety, and for the safety of other people who may be affected by his or her acts of omission.

Contracted agents are encouraged to formulate their own policies and practices in-line with their statutory obligations.
